EDUCATION

Bachelor of Technology in Computer Science 2023 - 2027
Punjab Technical University 7.3 CGPA

Higher Secondary Education 2021 - 2023
Bihar School Examination Board (BSEB)

Technical Skills

Customer Support: Customer Query Handling, Issue Resolution, Problem Solving, Customer Assistance
Communication: Verbal Communication, Written Communication, Team Collaboration
Programming Languages: Python, SQL, JavaScript, C, C++
AI & Automation: Machine Learning, Generative AI, Deep Learning, LLMs, Prompt Engineering,
Libraries & Frameworks: Pandas, NumPy, Scikit-learn, Streamlit, Agno Framework, FastAPI
Tools: Git, GitHub, VS Code, MS Office , Cursor AI, Claude AI

Internship / Experience

AI & ML Virtual Internship | Eduskill (AICTE Approved). July 2025 – Sep 2025

- Completed virtual internship in AI & Machine Learning
- Worked on basic machine learning concepts and data handling using Python
- Gained practical exposure to model building and data analysis
- Learned real-world applications of AI in problem solving and prediction models

IT Intern | SMG Pvt Ltd. Dec2025 – Jan 2026

- Worked as an IT Intern and collaborated with team members
- Demonstrated strong communication and teamwork skills
- Handled assigned tasks proactively and met deadlines consistently

PROJECTS

Smart Cart Clustering System | Github |Live Demo Jan 2026 - Feb 2026

- Built a Customer Segmentation system using K-Means Clustering to analyze customer shopping behavior.
- Processed and preprocessed customer data using Python, Pandas, feature encoding, and StandardScaler.
- Applied Principal Component Analysis (PCA) for dimensionality reduction to improve clustering performance.
- Identified customer segments such as high-value, regular, and low-value shoppers to support business analytics.
- **Technical Skills: Python, Pandas, NumPy, Scikit-learn, K-Means Clustering, PCA**.

AI YouTube Video Analyzer | Github |Live Demo May 2026– June 2026

- Built an AI-powered YouTube Video Analyzer to generate summaries and key insights from YouTube videos.
- Developedan AI agent using the Agno Framework and Groq LLM (Llama-3.3-70B) to analyze video content and provide meaningful insights..
- Integrated Agno YouTubeTools to retrieve YouTube video content and automate the end-to-end analysis workflow..
- Created an interactive Streamlit application with input validation and error handling for reliable video analysis.
- **Technical Skills: Python, Streamlit, Agno Framework, Groq LLM (Llama-3.3-70B), AI Agents, YouTubeTools.**

Personal AI Assistant | Github |Live Demo Jun 2026 - July 2026

- Built an AI-powered Personal Assistant using Flask and Groq API to answer user queries and summarize email content in real time..
- Integratedthe Groq API with Llama 3.3-70B to generate context-aware AI responses.
- Developed REST-based backend APIs using Flask and connected them with a responsive frontend using JavaScript Fetch API.
- **Technical Skills: Python, Flask, Groq API, Llama 3.3-70B, HTML, CSS, JavaScript, REST API.**

CERTIFICATIONS

- Python Certification - **Internshala** July 2025
- AI & ML Certification – APNA Collage July 2026

ACHIEVEMENT

- Serving as a Campus Leader for HackWith India, promoting hackathon participation and coordinating campus-level activities.
- Secured **15th position** among 400+ teams in a hackathon, demonstrating strong problem-solving and teamwork skills.
